

## **Vishal Kapoor**

Chief Operating Officer

Prior to Chia, Vishal Kapoor served as the CEO of Paradata, a machine learning-based RPA engine for analyzing and adjudicates supply chain component data. He is also a partner at Three Legged Stool – a company that creates software solutions to serve the needs of the COVID crisis and beyond. Earlier in his career, Vishal worked in engineering, sales and product management at Alcatel, Silicon Access Networks, Verisity, and Cadence. He started his career engaged in the discovery of the Higgs Boson, developing big data and tiered data acquisition systems at the Superconducting Super Collider for the U.S. Department of Energy.
